

## LAWN MOWING MADE EASY

### *A primer on turning a chore into an opportunity for alone time by Lawn-Boy*

Who knew one of the chores of the growing season would be a wonderful opportunity to claim some “alone time” in the backyard? With easy-to-use Lawn-Boy mowers, it’s no chore – it’s a chance to escape other worries and experience Zen-like solitude.

Here are some simple ways to use your Lawn-Boy mower and revel in the moment:

- **Mulch it – don’t bag it.** With Lawn-Boy’s Easy Mulch® Cutting System, there’s no need to bag your grass. The system helps mince and hide the clippings in the lawn, resulting in a great looking lawn.
- **Let the mower do the work.** Lawn mowing isn’t a track meet. With Lawn-Boy’s Easy Stride® transmission, you have at hand infinite mowing speeds of up to 4 miles per hour. Slight pressure applied to the handle automatically adjusts its speed to match yours.
- **Get a grip.** The comfort and ergonomic design of handles on some Lawn-Boy models eliminates pinching and discomfort – and who couldn’t use a little less of both?
- **Light on its feet.** Lawn-Boy mowers are the lightest weight in their class and perfectly balanced to enhance maneuverability. That means less effort for you whether you’re pushing, turning, going up a hill, maneuvering around landscaping or if you find yourself mowing your neighbor’s lawn, too.
